

PARADOR

Vinyl flooring

People around the world trust the quality and design standards of Parador.

Unique in function and design, our vinyl floors meet all requirements. The same decors across the product versions and the predominantly waterproof product structure enable uniform looks throughout the home.

The authentic reproduction of near-natural materials, ultimate durability and low maintenance make Parador vinyl flooring an indispensable companion – even in challenging situations.

living

Living performance

is the core of the Parador brand. For us, living means appreciating beauty. Performance is precisely that. Parador combines both at the highest level – and prepares the ground for individual living spaces.

performance

Art of living meets performance

The world is changing. Increasingly complex challenges and multi-faceted impressions create surprising movements, ultimately fashioning a new dimension to the value of home living.

People who deal with forms of individual living and identify with their home in a new way turn into communities, who take care with their home surroundings.

The criteria by which the quality of life and living are re-evaluated are changing. Parador products make a sustainable contribution in this regard. In them, beauty, design and technology, worth and longevity are combined to form a perceptible and emotional basis that withstands the demands of everyday life.

In this respect, our aim is to earn the trust of our customers for everything that we do – with clear values and a clear attitude: we are genuine, innovative and ambitious. We are proud of combining valuable home living with artistic life through what we do.

Living performance.

1. Our attitude is a clear compass that points to the future.

2. Inspirations from art, architecture and society give our products character and personality.

3. Highest standards and “German Engineered Quality” set us apart.

4. An innovative spirit and excellent technology lead to results and awards recognised worldwide.

5. Our floors promote healthy living, are low on emissions and create a pleasant living environment.

6. Sustainability is our foundation and goes hand in hand with our responsibility to preserve nature for the next generations.

Some people appreciate a classic flooring design, on which the choreography of the light comes perfectly into its' own. Others are impressed by the artistic freedom of a particularly expressive decor: Parador vinyl flooring is as varied as the people for whom it is made. All Parador vinyl floors have one thing in common: the combination of design and technology make them genuine top performers for aesthetically and functionally high-quality room concepts.

Parador vinyl flooring manages to authentically reproduce near-natural materials with astonishing perfection. Looks in extraordinary quality allow living dreams to become reality in different usage scenarios. Our synchronous textures stand for a special natural quality: Parador vinyl flooring not only looks like its role model from nature. It also feels like it. And the resilient, warm surface makes walking barefoot in pleasant room acoustics a given: unnecessary noises are not heard.

Innovation hub and material workshop, trendsetter and design leader: Parador is as *versatile* as the products for which the company stands.

On the following pages we show what makes our wide offer so special: a *declaration of love* to the possibilities of customised room interior design with Parador vinyl flooring.

a, d As a traditional wood processing company, we are committed to our responsibility for the environment. We are inspired by it – also to produce our particularly durable vinyl floors, which look astonishingly like their role models from nature.

b, e The diversity of contemporary and classic designs, combined with a convincing surface feel that makes walking barefoot on vinyl flooring a pure pleasure – that is what characterises Parador.

“We only offer decors on which we would like to live ourselves. Because Parador is more than flooring.”

Parador vinyl flooring is low in emissions and anti-bacterial, and its robustness and long life cycle contribute to a prudent use of our natural resources. All Parador vinyl floors are regularly tested with very good results to make sure they are harmless and found to be good. Their special surface treatment has a repellent effect against dirt and bacteria. Our vinyl flooring is very quiet and easy to clean, making it perfect for households with children, allergy sufferers and pets.

Our experience is the foundation for the manufacture of premium products, which impress with design and intelligent technology. At our headquarters and registered office in the Westphalian town of Coesfeld, we bring together our expertise gained from over 40 years of experience, our knowledge about contemporary and high-quality materials and our own claim to products that promote healthy living so as to create vinyl floors that simply impress.

c At our headquarters in the Westphalian town of Coesfeld, outstanding employees develop technically intelligent, impressive floors with expertise and plenty of feel for international trends.

If it comes down to *durability* in aesthetically sophisticated rooms, vinyl flooring is a genuine all-rounder: the top performer is the ideal choice for people with high quality standards and a sense for individual interior design.

The resilient surface is particularly warm underfoot and ensures pleasant acoustics.

Anything goes: three product lines, intelligent solutions for different requirements and the click system for effortless installation make Parador vinyl flooring a top performer with the power to impress.

The same decors across various product versions and the predominantly waterproof product structure enable uniform looks throughout the home or business.

Parador vinyl design flooring offer a wide choice of attractive decors and surfaces in three product lines for every purpose. The Basic, Classic and Trendtime collections are aimed at different target groups. They take on any renovation challenge – and give rooms a special atmosphere.

Basic

is our collection for all those who are price-conscious but do not want to forgo quality: in the Basic line you will find an impressive selection of attractive vinyl floors that turn any place into a genuine home.

Page 26

Classic

is uncompromising in quality, classic in design and can be used almost everywhere.

The Classic line is aimed at people with a high standard of design and quality.

Page 32

Trendtime

impresses everyone for whom flooring is an expression of their attitude: the collection combines a unique design spectrum for stylish furnishing in keeping with the times with worth at the highest level.

Page 38

Edition

combines exclusive special collections – shaped by international trends and cultural influences. Created by Parador itself and working together with renowned designers, the floors stand for unique design quality alongside the highest functionality.

parador.de/en/design-collection

Iconics Our passion lifts the work on the product from rationality to the level of sensuality. In the product world, uniqueness is increasingly important: products with soul. We take this conviction into account with our new “Iconics” products.

They are modern signs with iconographic potential – bold, extraordinary and at the same time relevant to the design of beautiful spaces with a special character.

We live for products, that turn any place into a genuine home.

Our collections turn
any place into a genuine home.

Parador vinyl is more than a floor: an aesthetic concept for every application area. Due to having the same decors across the different vinyl flooring versions, it is possible to design various room situations with an identical look. Because depending on requirements we offer our top performer in up to three versions: vinyl floors with HDF core boards are the perfect solution when designing living rooms if slight bumps need to be evened out. Vinyl flooring with an SPC core board is particularly dimensionally stable and waterproof as a floor for universal use;

it is very well suited for large spaces and wet rooms. Vinyl flooring for gluing, finally, is particularly suitable for demanding room situations due to its strong bond to the floor. The different versions can be ideally combined with each other – for a thoroughly stylish look. They offer the optimal solution for every application. Whether in living rooms, the kitchen or bathroom, the same decor can be used everywhere.

Extra matt surfaces

“A floor that impresses through character and uniqueness.”

In the studios in the north of the Netherlands, where genuine works of art are made out of recycled sailcloths, we were inspired to come up with Industrial Canvas Iconics. From an apparently random procedure, during which sailcloths are abstractly painted and folded,

fascinating shapes are created. This kind of design on a concrete look combined with typography ultimately creates a floor that impresses through character and uniqueness.

Parador offers matching skirtings for every floor. Simply enter the product number of your favourite flooring into the search field on our website and you will be shown the skirtings that match it. parador.de/en

Synchronous texture

Synchronous textures made by Parador have a particularly natural quality. The textures are precisely matched to the representation of the decor image and imitate, for

example, knots in the timber or fine cracks in a vibrant manner. Different depths determine the diversity and give the flooring a particularly authentic appearance.

“Old art forms allow us to see something new.”

The poetry of light and shadow is symbolic of opposites that belong together. If they can be split superficially into clear boundaries, the opposites dissolve on closer inspection, flow into each other and open up a view of something new. In the foreground of our cultural

marriage of light and shadow is the vinyl flooring “Silhouette”, which reinterprets the interplay of colour and form on the ground, thus reviving old art forms a new, functional vinyl floor.

Experience *real beauty* with all the senses: discover the interplay of formats, surfaces and textures.

Surface textures

Sometimes they are deeper and sometimes flatter, but always tangible and kind to all those who walk on it barefoot, in shoes or on four paws: the surface textures of Parador vinyl flooring are characterised by quality and depth.

In the case of **synchronous pore**, the embossing follows the decor grain precisely. The result is a look that can hardly be distinguished from real wood.

Find out more at parador.de/en/your-floor/product-knowledge/vinyl-flooring

Bevel design

Without bevel

In the case of the classic installation, the planks join together without any clearly recognisable spaces. The harmonious image of the floor creates a closed overall impression.

4-sided bevel

By emphasising the individual planks, the all-round bevelled long and end edges create an installation pattern with the charm of a genuine floorboard or tiled floor.

Vinyl flooring with HDF core board is the perfect solution when designing all living rooms where slight bumps have to be evened out.

The integrated footfall sound insulation made of cork ensures quiet room acoustics alongside high walking comfort. Vinyl flooring with HDF core board is *robust and easy to maintain* as well as being easy to install thanks to the click system.

Vinyl flooring with HDF core board

- | | | |
|--|---|--|
|  Very quiet and warm underfoot |  Suitable for underfloor heating |  Core board with enhanced swelling protection |
|  Robust and easy to maintain |  Integrated footfall sound insulation |  High walking and living comfort |
|  Tested and healthy in the home |  Suitable for slightly uneven substrates |  Safe-Lock® PRO |
|  Antibacterial and hygienic |  Particularly dimensionally stable | |

The flooring for particular living comfort. Vinyl flooring with HDF core board, as a contemporary and innovative floor with an intelligent structure, is the first choice for aesthetically and functionally high-quality room concepts.
parador.de/en/your-floor/product-knowledge

- 1 UV coating layer
- 2 Vinyl wear layer
- 3 Vinyl decor layer
- 4 Vinyl core layer
- 5 HDF core board
- 6 Cork layer
- 7 Safe-Lock® PRO

Vinyl flooring with SPC core board, as flooring for universal use, is *particularly dimensionally stable*. Its core board evens bumps out perfectly. Renovations on tiles can give the living space a completely new look with little effort.

In case of demanding room situations such as larger spaces, floor-to-ceiling windows and conservatories, the waterproof vinyl flooring is the ideal choice; it even lends a special ambience to wet rooms.

Vinyl flooring with SPC core board

- | | | |
|---|---|---|
|  Very quiet and warm underfoot |  Waterproof |  Installation over joints and through doors |
|  Robust and easy to maintain |  For demanding room situations |  Low installation height |
|  Tested and healthy in the home |  Integrated footfall sound insulation |  Comfort-Click |
|  Antibacterial and hygienic |  Suitable for slightly uneven substrates | |
|  Suitable for underfloor heating |  Particularly dimensionally stable | |

The all-rounder for every room situation. Due to the SPC (= Solid Polymer Core) carrier material, expansion changes within the product caused by both humidity and temperature are minimal. A perfect installation pattern is possible in just a few steps. parador.de/en/your-floor/product-knowledge

- 1 UV coating layer
- 2 Vinyl wear layer
- 3 Vinyl decor layer
- 4 SPC core layer
- 5 Akustik counter layer
- 6 Comfort-Click System

Vinyl flooring for gluing is ideal for *demanding renovation projects* due to its low installation height.

The gluing process ensures a strong bond with the substrate and combines homeliness with resilience.

Vinyl flooring for gluing provides wood looks in living rooms and wet rooms and also makes a good impression in conservatories.

Vinyl flooring for gluing

- | | | |
|--|---|---|
|  Very quiet and warm underfoot |  Antibacterial and hygienic |  For demanding room situations |
|  Robust and easy to maintain |  Suitable for underfloor heating |  Very low installation height |
|  Tested and healthy in the home |  Waterproof |  Gluing |

The flooring for demanding room projects. Parador vinyl flooring for gluing can be used everywhere without problems. The special product structure and installation type ensure extremely high durability and resilience with this version. Vinyl flooring for gluing is waterproof and therefore ideal in all living rooms that pose particular requirements of the flooring. parador.de/en/your-floor/product-knowledge

Underlays

Parador floors can be optimally installed for any application: our underlays even out small bumps and at the same time provide high compressive strength. With an integrated moisture barrier, the right product ensures the necessary moisture protection in case of mineral substrates.

parador.de/en/services/faq/underlays

Service with system: A perfect overall impression is down to the detail. That is why Parador provides the exactly matching accessories for installation and care – for the joy of flooring. From the start.

Tools

Parador floors can be easily installed with few additional tools:

parador.de/en/your-floor/product-knowledge/vinyl-flooring

Valuable information about accessories at parador.de/en/your-floor/how-to

Skirting boards

Parador offers a wide range of optically matching skirtings for a harmonious look to any product. Alternatively, the colours stainless steel, white and black or a primed surface for customised painting, give the opportunity to deliberately accentuate. Parador skirtings impress due to their easy fitting with clip technology (optional adhesive in adhesive groove). Our choice of caps rounds the range off. Simply perfect!

Profiles

Parador profiles combine, bridge and create finishes for perfect flooring aesthetics. As transition profiles, they connect floor coverings of the same height and expansion joints. Adapting profiles are used for the transition between different high floor coverings. End profiles create clean borders with tiles, door sills and French

windows. Perfect flooring harmony is achieved with the 3-in-1 profile that is identical to the flooring in terms of decor and texture, which can be universally used for every purpose. parador.de/en/your-floor/product-knowledge/skirtings-and-profiles

Cleaning and maintenance

When it comes to cleaning and maintenance, our accessories continue the high quality line of the Parador floors down to the last detail: Parador care accessories ensure a particularly long life cycle.

Repair

With the Parador premium repair set, minor damage is soon rectified – because taking joy in our products for a long time is close to our hearts, even if some slight damage to the flooring is incurred from time to time.

parador.de/en/your-floor/product-knowledge

Parador vinyl flooring is an expression of personality. Our collections combine the homeliness and warmth of wood looks with the outstanding technical properties of a resilient design flooring: for unique living comfort.

Setting standards. Taking responsibility.

We act sustainably, take responsibility for the future and are committed to bringing the environment, social issues and responsible business practices in *perfect balance*.

When it comes to manufacturing products that are healthy in the home, we use tested raw materials. During the manufacture of all Parador products, besides wood we use other high quality, recyclable and environmentally-friendly materials from monitored sources; engineered wood flooring is, of course, produced by us using timber from sustainably managed forests.

We are continuously certified by independent institutions. Production, materials and products from Parador go beyond statutory requirements when it comes to meeting the value standards of a brand with responsibility. We are the first and only flooring manufacturer in Germany to be EMAS-certified since 2015: EMAS is the most demanding system worldwide for environmental management.

We are committed to our particular responsibility for the environment. Wood is sustainable and actively contributes to climate protection. Once installed, all Parador products are characterised by a long life cycle. Where we can, we use materials that can be easily reused in terms of energy and material.

Plant-for-the-Planet. Since 2011 Parador has been a partner of the "Plant-for-the-Planet" foundation, which campaigns worldwide for reforestation and climate justice. We support the initiative with tree-planting campaigns, as a result of which almost 200.000 trees have been planted by Parador alone.

TÜV Rheinland
The TÜV test mark confirms independent monitoring of the quality, production and functionality of the Parador products.

Émissions dans l'air intérieur (Class A+)
This national classification valid in France indicates the quality of indoor air.

PEFC™
This trademark is awarded to products that meet the requirements of the certification system for the documentation and improvement of sustainable forest management with regard to economic, ecological and social standards.

You can find out more information about us, our quality and design standards and about our products on parador.de/en. If you have any questions, we will be happy to help you. We thank you for your visit!
